6. 06 Explore (pre-login)	17. 17 Workout plan detail
7. 07 Login	18. 18 AI Fitness Coach
8. 08 Shell — Home tab	19. 19 Gym support (FAQ bot)
9. 09 Shell — Attendance tab	20. 20 Gym detail
10. 10 Shell — Gyms tab	21. 21 Check-in (deep link)
11. 11 Shell — Buy tab	22. 22 QR scan & Attendance history

Navigation flow

Primary #20B2AA Accent lime #D4FF00 Card surface #FFFFFF Muted / background #F8F9FA

Design tokens (current)

Typography: Material 3 theme — titleMedium w800 for app titles, labelSmall for chips, bodyMedium for content.

Spacing: Screen horizontal padding 16px · Section gap 18–20px · Card radius 14–16px · Bottom nav margin 16px.

Components: HomeSectionLabel, HomeQuickActions, HomePlanCard, ProfileActionsCard, DietPlanCard, AttendanceMethodCard.

01 · Splash

Auth flow Route: /splash · Auto-routes after 900ms

Full-screen gradient splash

- Gradient: primary → secondary (teal)
- Centered dumbbell icon + “GYM MEMBER” wordmark
- No buttons — boots to onboarding, profile setup, explore, or home

02–04 · Onboarding slides

Auth flow Route: /onboarding · PageView · 3 slides

Immersive onboarding

- Black background, full-screen images (slide_1–3.jpg)
- Headline split across 2 lines + lime accent line
- Page indicators, Skip, primary CTA at bottom
- Completes → profile setup

05 · Profile setup

Auth flow

Route: /profile-setup · 4-step PageView

Setup · Step 1/4

Weight

kg

lb

Ruler value picker

Continue

Step 2/4 — Height

cm

ft/in

Ruler picker

Continue

Step 3/4 — Age & gender

Age number field

Male

Female

Other

Continue

Step 4/4 — Fitness goal

Lose weight

Build muscle

Stay healthy

Finish

Multi-step wizard

- ProfileSetupScaffold with progress indicator
- RulerValuePicker for weight/height
- FitnessGoalList selectable cards
- Saves to member profile + prefs

06 · Explore (pre-login)

Auth flow

Route: /explore

Find a gym

Sign in

Gyms directory hero

All

.....

Error message (if any)

Sign in

Single-device dialog on submit

Email/password login

- Single-session confirmation dialog
- Success dialog → profile setup gate → home
- Validates member record via get_my_member_context

08 · Shell — Home tab

Main shell Route: / tab 0 · Pull to refresh

Member dashboard

- HomeWelcomeHeader, HomeQuickActions (4 tiles)
- HomeQuickStatCard ×2, optional HomeCheckInBanner
- HomePlanCard, OffersCarousel, PaymentDuesList
- HomeRecentAttendanceSection with View all

09 · Shell — Attendance tab

Main shell Route: / tab 1

Check-in hub

- AttendanceStatusHero, AttendanceStatsRow
- AttendanceMethodCard: GPS + QR
- Location verify → markMyAttendance RPC
- Links to MyAttendancePage full history

10 · Shell — Gyms tab

Main shell Route: / tab 2 · Title: "All gyms"

Gym directory (logged in)

- MemberGymsTab → GymsDirectoryTab
- GymsDirectoryHero + GymListTile list
- Tap → /gym/:gymId

11 · Shell — Buy tab

Main shell Route: / tab 3

Gym shop

- ShopHeader, ShopCategoryBar (horizontal chips)
- ProductGrid 2-column cards with image, price, stock
- ShopEmptyState when no products

12 · My profile

Feature Route: /profile

Member profile hub

- ProfileHeroHeader, ProfileStatsRow, ProfileInfoSection
- ProfileActionsCard with navigation to all sub-features
- Reuses HomePlanCard for subscription

13 · Edit profile

Feature Route: /profile/edit

Editable member fields

- EditMetricDialog for weight/height/age
- EditProfileGenderSection, EditProfileGoalSection
- Image upload to storage

14 · Diet plans list

Feature Route: /profile/diet

Assigned diet plans

- Goal filter chips, DietPlanCard list
- Tap → /profile/diet/:dietPlanId
- Empty state when no plans assigned

15 · Diet plan detail

Feature Route: /profile/diet/:id

Meal-by-meal breakdown

- DietMacroRow summary, meals grouped by label/time
- Food rows with guidance text per meal

16 · Workout plans list

Feature Route: /profile/workout

Assigned workout plans

- Card shows name, goal, sessions/week, experience
- Tap → /profile/workout/:workoutPlanId

17 · Workout plan detail

Feature Route: /profile/workout/:id

Session logging

- Sessions expandable with exercises
- Complete / Skip → log_my_workout_session
- AI adjust button calls edge function + apply sessions

18 · AI Fitness Coach

Feature Route: /fitness-chat

Chat assistant

- Suggested prompt chips when empty
- User/assistant bubbles, quota in app bar
- Input + send, conversation history
- Separate from FAQ Gym Support

19 · Gym support (FAQ bot)

Feature Route: /support

Rule-based FAQ browser

- Category chips → question list → answer
- Gym-configured FAQs from database
- Not AI — static Q&A

20 · Gym detail

Feature Route: /gym/:gymId

Single gym view

- GymDetailHero, GymWeeklyHoursCard
- Contact actions (call, maps)
- Active promotions list

21 · Check-in (deep link)

Feature Route: /checkin?gymId=

QR deep link landing

- CheckInPage + check_in_flow
- Requires auth + member linked to gym

22 · QR scan & Attendance history

Feature Modal / pushed routes

Secondary attendance screens

- QrScanPage — mobile_scanner camera overlay
- MyAttendancePage — full history with summary stats
- Opened from Attendance tab or Profile quick actions

Redesign checklist

Use this catalog to redesign in order: Design tokens → Shell + Home → Profile → Attendance → Diet/Workout → AI Chat → Auth/Onboarding.

For each screen, note the route, components to preserve (data layer), and wireframe regions to restyle. Regenerate this PDF after major UI changes: ./generate-pdf.sh
